

输送高度 40 米 丹麦 Simatek 公司 Z 型提升机 | 输送

收录于合集

#输送 42 个 #提升 3 个

More than 1000 Simatek bucket elevators are delivered for conveying both fragile and abrasive products, since Simatek produced the first elevator in 1983.

自 1983 年 丹麦 Simatek 公司 生产第一台 Z 型提升机以来，已交付了 1000 多台套 Simatek 斗式 Z 型提升机，用于输送易碎和磨蚀性产品。

Intermediate outlet

Electric pneumatic intermediate outlets can be mounted on the horizontal sections as per request.

Corner section

Corner section with shaft and sprockets. Double bearing construction of both shaft and free-running sprockets.

Drive and emptying section

The drive section has an electric overload control to protect the elevator.

Filling and tensioning section

Optimum operation requires a controlled filling of the elevator. For further information please see separate program on feeding and dosing systems.

The tension section has a unique pneumatic chain tensioner ensuring correct, parallel tensioning.

Vertical and horizontal sections

As standard the intermediate sections come with a rail system for controlling the chains and buckets. The lower horizontal sections have an easily operated drawer system for easy cleaning.

Service

The vital parts of the elevator have service doors for easy service and inspection access.

Simate 公司的 Z 型提升机特点

- 灵活
- 可靠
- 温柔
- 高效节能
- 易于清洁
- 低维护

01

滚筒喂料器

- 低速下的高产能
- 无溢出
- 高充满系数

02

链条自润滑系统

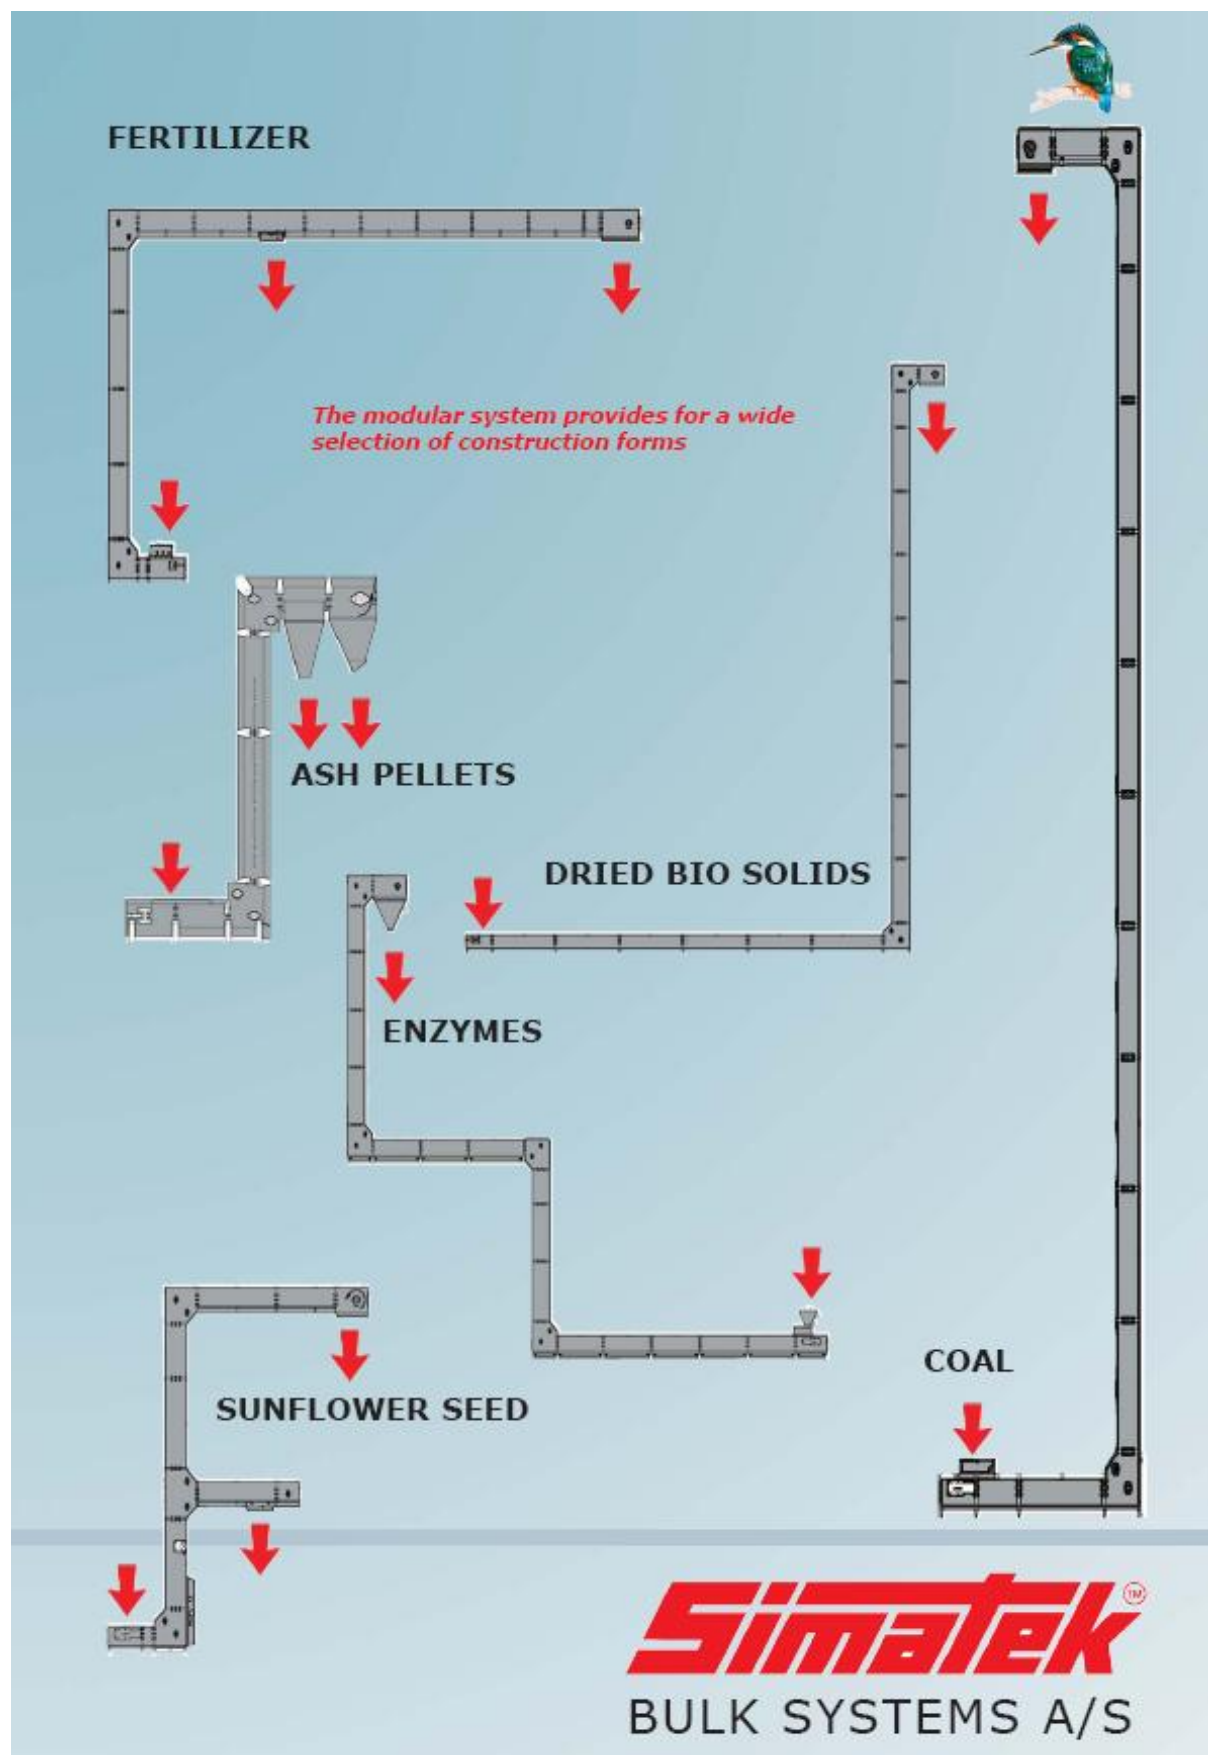

03

最高输送高度 40 米

Gentle Conveying of Abrasive Products

应用行业

- 谷物
- 种子
- 饲料
- 工业散装
- 食品
- 精细化工

关于 丹麦 Simatek Bulk Systems A/S 公司

丹麦 Simatek Bulk Systems A/S 是一家专门从事易碎产品机械输送的公司。

对于产品的轻柔和灵活输送，提供终极解决方案。

丹麦 Simatek 在 Z 型提升机上的持续开发过程已经产生了各种各样的摆锤斗式 Z 型提升机，根据行业对易碎产品内部运输的全面需求进行定制。

丹麦 Simatek 通用 Z 型提升机以其灵活性和输送易碎产品而著称，特别考虑了产品的质量
和结构。
